5.25 Shadowbringers Update! Cool L70 to 80 part update to calculate new skills, added new rotation! 403 Issue: I tried something and hope to ease the issue to affected users. Let me know if it helped! - Mahiko Hope SanShB 5.3 update! Dwarf Monster Tribe and Ehll TouRecent Update Log5.3 UpdatesDwarf Monster Tribal Quests are added in SHB level as a noticeable EXP source. I.L.T. added as a custom delivery customer option. Previous updates Kai Cher added as a custom delivery customer option at SHB level. L70 to L80 section basically renovated: new skills and rotation! 5.2ish was clusterF. Skills changed twice in a short period of time. It's all right now! L70 + Gear Recommendation: Yellow Scrip gear is now recommended, for a number of reasons (basically, you hardly need stats for 70 to 80 leveling) useful links to open: Culinarian Guide Guide Guide Guide - Navigation: [0-15] | [15-35] | [35-50] [50-60] | [60-64] | [64-70] | [70-80] Ixal Monster Tribe Daily Tasks: Bonus Crafting / DoH EXP! At L15+, it's time to start doing this! The main purpose of why I'm paying for this is – saving LEVEQUESTS!!!! They're valuable while settling artisans! Start Quest: Bad Bladder NPC Website: Scarlet in New Gridania (9, 11) MSQ Condition: The Quest for the Past is best used by daily newspapers to push past bad layers, or simply at the highest level of your non-crafter 50. I suppose you can also use it to craft layers that lag for one reason or another. Colinari Level 15-20Level 15 Culinarian Class Quest Item: Meat Miq'abob Level 15 CUL Dams [L] Ocation: Aleport | Limsa level 15 Culinarian dams discuss items: I would not recommend using dams this layer, but if I choose to... [H] [1] Raw oysters – equal [H][1] dodo omelette – equal [C] walnut bread – make a handful of these ... (Not necessarily for dams) [RC] Apple Tart. [L] [1] Chicken and mushrooms – equal to [L] [1] lavender oil – if you do dams this layer, you may as well choose this one. The usual unsexy 15 class... It is better to grind walnut bread for future use... But for speed, courier/reverse courier is of course the best to do. You also have the option of apple tart spam for the following degree. If Grinding: W L N U T - B R E A D.Culinarian Level 20-25Level 20 Culinarian Class Quest Item: Dried Peach Level 20 CUL Dams [L] Ocation: Quarrymill | Limsa Level 20 Culinarian Discuss Items: [H][3] Walnut Bread – as I said above... [H] [1] Grape juice – the best levi one on this layer. [C] Salmon Monnier - No ... [L] [3] Apple Tart – it is equally viable. [L] [1] Honey cakes – very complex, best grape juice [L][1] shepherd's pie – depends heavily on the market ... Nut bread is cheap and easy to make, and you have almost everything if you follow this guide. Worth it! Be sure to stick to some walnut bread... For single dams, if you want to do them, grape juice is better. If grinding: make any fibrous item, or more nut bread! Culinarian Level 25-30Level 25 Culinarian Class Quest Item: Steak Level 25 Cool Dams [L]ocation: Quarrymill | Limsa level 25 Culinarian dams discuss items: [H][3] Chamomile tea – recommended dam repetition. [H] [1] Ginger Cookie – makes more sense to do pea soup ... [C] Chicken broth – CUL couriers definitely suck ... [L] [3] Eel pie – chamomile should be cheaper... [L] [1] Pea soup – the best levi one on this layer. Not bad for grinding [L] [1] Crombit – still very cheap, but pea soup is the winner. If grinding: Pea soup makes an excellent grinding option. You can use this to get support in HQing leve items (+CP!), and provide extras for exp. Culinarian Level 30-35Level 30 Culinarian Class Quest Item: (HQ) Smoked Raptor Level 30 CUL Dams [L] Ocation: Costa del Sol | Limsa Level 30 Culinarian Dams Discuss Items: [H][3] Corn flour – Godlike. As far as I'm concerned, this is the only dam in this class. [H] [1] Currant tart in the blood – ^ [C] dark vinegar – ^^ [L][3] single bread – ^^^ [L][1] Tuna Miq'abob – ^^^^ [L] [1] Corn bread – if you're going one, that's it. This level is very unbalanced, nothing beats Kornd. Don't even consider using another type of levy. If grinding: More corn flour for more abuse. You seem to be in the market for some levequests to experience additional during your settlement adventures! Dams are the fastest way to level the character and provide a generation and a strange amount of fragments to boot. If you are looking to set yourself up some small goals and get huge chuncies of experience, fibrous grinding is the way to go. There are three types of trade dams available. It is highlighted below so you can use this list to the fullest extent. The list here is fairly clear, but there are some things you need to explain: gaining basic experience is listed. You will receive twice the basic experience of the headquarters in operation. Regular quality bonuses are marked as role in NQ and high quality role in rewards with headquarters. Some areas have several levemetes. If one mentioned isn't in levemete you're currently in, check with the other. 'Constanisi', 'charity', and 'creativity' are a sign of the kind of dams these are. 'Constance' means both Levimet and his role in the National Press Council in the same region. These are marked with (C). Charity means that the dam can be converted in three times (also known as a repeatable dam). These are marked with (T). Creativity means levemete and its turn in the National Press Council in separate areas. These are marked with (I).
